

Product Ref: 6154 / 6155 / 6156 / 6158

Designed specifically where floor drainage is required but where space underneath is limited – e.g. a wet room. This two-part kit with a powerful shower waste pump and choice of four waste designs is now wireless, making installation even easier. The water activates the pump thanks to the detection system integrated into the drain. The water is then sucked from the gully and pumped away.

Why choose this product?

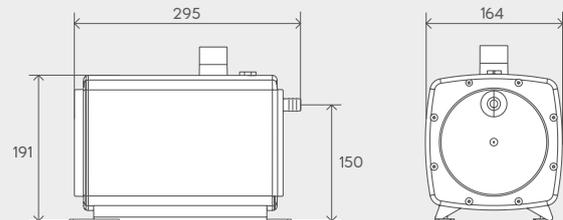

- Suits wet rooms and low level shower trays
- Ideal for high flow applications
- Pump and waste inlet can be up to 3m apart horizontally
- Dual function - sucks waste up from the gully and pumps waste water away up to 3m vertically or 30m horizontally
- Pump can be sited up to 300mm above the gully
- All gully types are 90mm in diameter
- New wireless version for easy installation

Vertical/horizontal performance

Gully Types

- 1 6154: Sanifloor+ 1**
With shower waste for tiled floor – height 68mm
- 2 6155: Sanifloor+ 2**
With shower waste for vinyl floor – height 68mm
