1	MAGNA3 D 80-80 F					
	No	te! Product picture may differ from actual pr	oduct			
	Product No.: 97924503 The Grundfos MAGNA3 circulator pump is the ideal choice for almost any building project – old or new. With its unrivalled energy efficiency, all-encompassing range and built-in communication capabilities, MAGNA3 is ideal for engineers and specifiers looking to create high-performance heating and cooling systems. The pump is maintenance-free due to the canned-rotor type design. This also means that pump and motor form ar					
	integral unit without shaft seal and wit liquid.	n only two gaskets for sealing. The be	earings are lubricated by the pumped			
	MAGNA3 features an intuitive display and allows you to connect wirelessly with the Grundfos GO Remote app, giving you access to advanced reporting and monitoring.					
	The pump includes fieldbus communi- relays.	ation via CIM modules as well analog	g and digital inputs and configurable			
	Control features include FLOWADAP components.	, which reduces the need for throttlin	ng valves, thus cutting costs on system			
	MAGNA3 is the superior choice for a		plications, including:			
		g loops ing surfaces				
		onditioning surfaces				
	Grou	nd-source heat pump systems				
		ler chiller applications.				
	MAGNA3 is a single-phase pump and control box. The pump also has a buil	-in differential-pressure and temperat	ture sensor.			
	The pump housing is available in both carbon-fibre reinforced, the bearing pl made of aluminium. The power electro	ate and rotor cladding are made of sta				
	MAGNA3 incorporates a 4-pole synch characterised by higher efficiency that controlled by an integrated frequency Features:	a conventional asynchronous squirr	M motor). This motor type is el-cage motor. The pump speed is			
	The	communication options, including inp nost energy-efficient pump range with				
	Stair	igent control functions less-steel variant to accommodate do	omestic hot-water applications			
	Flow	Adapt Adapt, which reduces the need for the ponents	rottling valves, cutting costs on system			
		ortional-pressure control

Qty.	Description	
	•	Heat energy monitor
		No external motor protection required
		Innovative clamp ring with only one screw enabling easy repositioning of the pum
		head
		Insulating shells supplied with single-head pumps for heating systems
		Large temperature range due to air-cooled electronics.
