The Grundfos MAGNA3	circulator pump is the ideal choice for	almost any building project – old or new. With its
unrivalled energy efficien	hcy, all-encompassing range and built-i looking to create high-performance he	n communication capabilities, MAGNA3 is ideal eating and cooling systems.
• ·	• • •	sign. This also means that pump and motor form
integral unit without shaft liquid.	t seal and with only two gaskets for sea	aling. The bearings are lubricated by the pumpe
•	uitive display and allows you to copper	ct wirelessly with the Grundfos GO Remote app,
giving you access to adv	anced reporting and monitoring.	it whereasily with the Grandias CO Remote app,
	ous communication via CIM modules a	s well analog and digital inputs and configurable
relays. Control features include	FLOWADAPT which reduces the nee	d for throttling valves, thus cutting costs on syst
components.		
-	choice for a wide range of heating and	l cooling applications, including:
•	Mixing loops Heating surfaces	
	Air conditioning surfaces	
	Ground-source heat pump sys	stems
MAGNA3 is a single-pha	Smaller chiller applications. se pump and characterised by having	the controller and control display integrated in th
	-	the controller and control display integrated in the temperature sensor.
The pump housing is ava	ailable in both cast-iron and stainless-s	teel versions. The composite rotor can is made of stainless steel and the stator housing
made of aluminium. The	power electronics are air-cooled.	inade of stainless steel and the stator housing
MAGNA3 incorporates a	4-pole synchronous, permanent-magr	net motor (PM motor). This motor type is
characterised by higher e controlled by an integrate	efficiency than a conventional asynchro	onous squirrel-cage motor. The pump speed is
